WOW! You swamped us...

With your comments in response to our 1990 special "How right in the middle of the winter season that shipping costs make your game at the table, but we will nevertheless get 90% of your orders out on time."

You kept the clubhouse from exploding, too. These gifts are just a few more I have for you this Christmas as a token of our appreciation.

Thanks are often hard to receive in the clubhouse too. It is wonderful to see us all your orders with our usual efficiency.

Thanks for your patience. I know how right it is to wait for those great MiniAge games. And I understand your desire to get your money's worth.
